	- 3 -	25 X 1
4 0	Comment. The troop train from Dallgov-Doeberitz to Neustralitz	25X1
- + 0	is again believed to have carried a tank unit of the 1st Mecz Div to combat firing practices in the Neustrollitz area, as was observed twice in March 1953.	207(1
5。	Comment. On 3 April 1953, a troop train with six rocket launchers of the 25th RL Brig was observed passing through Brandenburg	25 X 1
	The train came from Rathenow and proceeded toward Potsdam. It is not known whether the rocket launchers went to the Justerbog troop training grounds for	25 X 1
	combat firing practice or to the rocket launcher repair shop of the GOFG, which is also stationed in Justerbog.	25 X 1
6.	Comment. As Seddin was probably not the dispatching station of this train, the troops carried cannot be identified.	25X1
